

## **Spy Glasses Instructions**

- Charge device using the USB cable. To have a full charge three hours is recommended.
- Insert micro SD card into the unit.
- Hold button to turn on. Steady red light.
- Hold button again. Red light will blink three times and go out. You are now in record mode and recording video.
- When done recording, hold button again until the red light comes back on. Wait 30 seconds for files to save.
- Take micro SD card out of the unit and playback on your computer.
